ABOUT

I'm a creative front end engineer and web accessibility advocate with 3+ years of professional experience in fast paced, high growth environments; both remote and in-office. I embrace learning when confronted with the unknown, and love to provide mentorship by sharing my knowledge. React is my bread and butter, but I'm always delighted to learn new languages or frameworks, and work across the stack.

I'm exploring new opportunities after taking a brief health focused break from full time engineering. I'm happy to chat about what I learned during this experience and how it will benefit me in my next role!

PRIMARY SKILLS

Javascript	Typescript	React	Git	React Testing Library
CSS/SCSS	Semantic HTML	Redux	Cypress	Accessibility / WCAG
Jest	Unit Testing	Next.js	GraphQL	Agile Methodology
React Query	E2E testing	Styled Components		

WORK EXPERIENCE

Front End Engineer   *October 2022 - December 2022*
Zapier

- Engineered data driven A/B experiments using Typescript, React, Next.js, GraphQL, and Split.io to increase signup and activation rates.

Front End Engineer   *August 2021 - September 2022*
Coterie Insurance

- Helped modernize the small business insurance industry by creating intuitive and accessible UI solutions for data driven quote flows and policy management dashboards using Typescript, React, and Redux.
- Lead a complex internal tooling project to completion by planning effectively, communicating early and often, and crafting thorough documentation.
- Lead efforts to create and enforce accessibility standards by collaborating with designers, reviewing code, and committing to baking accessibility into new UI components.
- Mentored engineering peers by pair programming, reviewing code, and offering 1:1 support in their professional development journeys.

Front End Engineer   *February 2021 - August 2021*
Brushfire

- Used React, Typescript, and Firebase to modernize a legacy C# Razor / jQuery codebase.
- Crafted an automated pre-commit code quality enforcement solution for a complex multi-language mono-repo.

Front End Engineer   *August 2019 - July 2020*
Bluetoad Inc.

- Engineered certified WCAG 2.1 compliant features using React, jQuery, and Javascript.
